**BALMORAL
HOT TUB**

ABOUT US

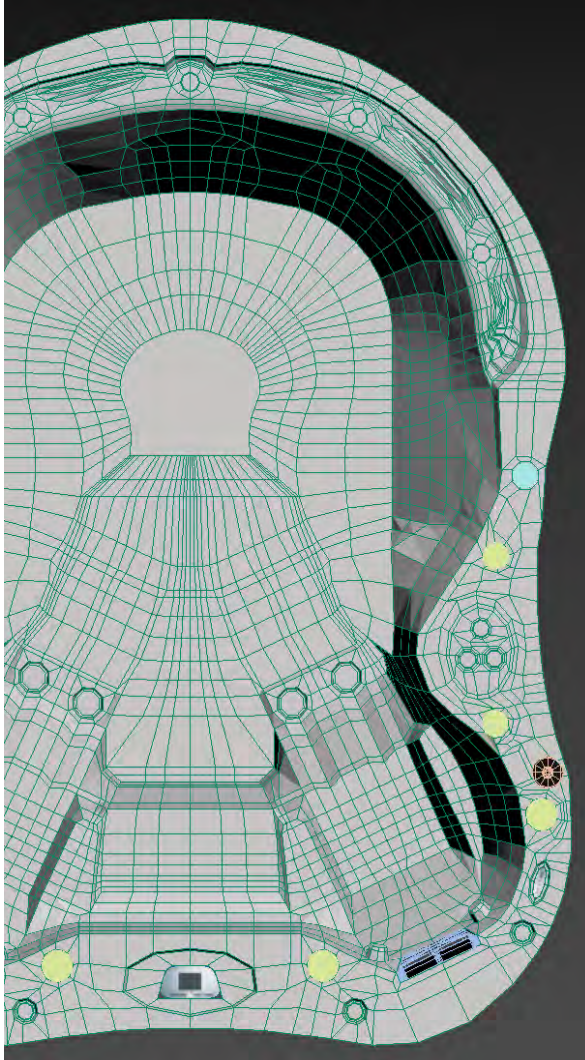

*An appreciation for heritage
without being defined by it,
quirky, stylish and fun.*

Over the last 5 years the UK Hot Tub industry has seen (and survived) the “Website Only” Internet Traders effect because customers still prefer to seek out a high quality, reputable product.

However, despite that “click to buy” hot tub retailers focus on sensational pricing (with no in-store experience or professional aftercare), the customer regrets their purchase later due to high running costs and low reliability.

There has to be a better way?

This is where the story of British Hot Tubs begins. With over 40 years’ experience in the industry we have created a “**designed in the UK**” range of hot tubs with the sole purpose of achieving the goal of providing a high specification - better value hot tub that adheres to international standards and is fit for the UK’s variable climate.

PROUDLY DESIGNED IN THE UK

We have invested 12 months and a huge budget in creating the right partnership, the right designs and the right processes - this is important to us to ensure that our customers will buy a product that is reliable, safe and energy efficient.

Our range of 13 hot tubs feature the very best available innovations and North American parts and components.
