ABOUT US

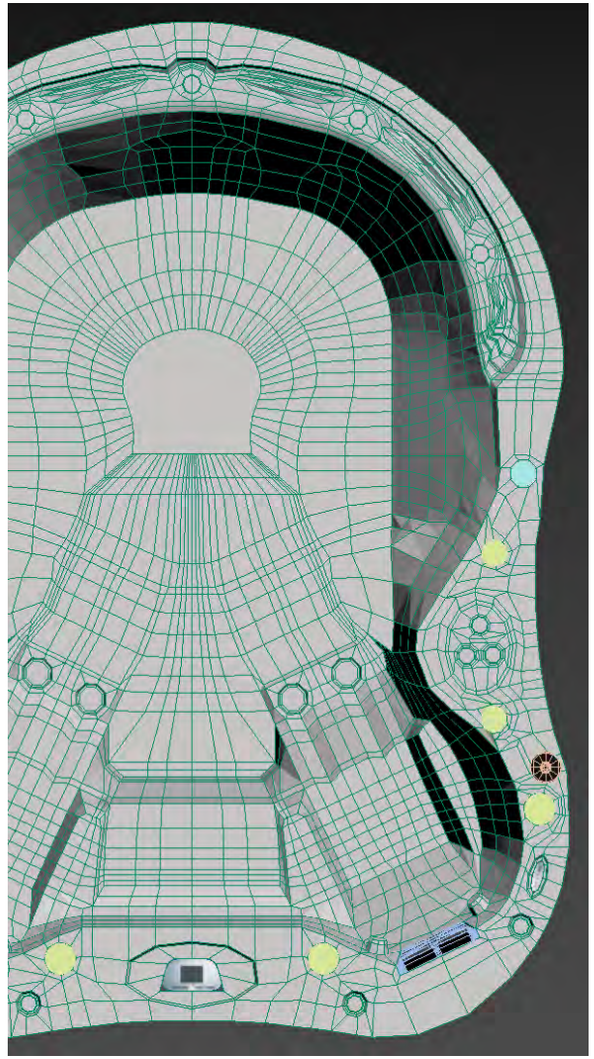

An appreciation for heritage without being defined by it, quirky, stylish and fun.

Over the last 5 years the UK Hot Tub industry has seen (and survived) the ‘website only’ internet traders effect, with many customers purchasing hot tubs online.

Many hot tub retailers focus on almost ‘too good to be true’ pricing, with no in-store experience or professional aftercare, so the customer later regrets their purchase due to high running costs and low reliability.

There has to be a better way?

This is where the story of British Hot Tubs begins. With over 40 years’ experience in the industry we have created a ‘**designed in the UK**’ range of hot tubs, with the sole objective to achieve a high specification hot tub at great value for money. British Hot Tubs adhere to international standards and are fit for the UK’s variable climate, backed by the best warranties in the business.

PROUDLY DESIGNED IN THE UK

We have invested 12 months and a huge budget in creating the right partnership, the right designs and the right processes - this is important to us to ensure that our customers will buy a product that is reliable, safe and energy efficient.

Our range of 13 hot tubs feature the very best available innovations and North American parts and components.
